

Focus: Job roles January 2016

Introduction

The National Minimum Data Set for Social Care (NMDS-SC) was created by Skills for Care in 2005 and currently holds information on around 23,000 care providing establishments and 730,000 workers in the adult social care sector.

Skills for Care estimate that across the whole sector in England, as at 2014, there were 39,500 care providing establishments and 1,550,000 adult social care jobs.

In Hampshire there were an estimated 1,000 establishments and 33,500 jobs in adult social care, around 19,900 of these jobs were care workers. From CQC data, as at December 2015, there were 576 registered managers in post in Hampshire. This report focuses on these two job roles.

Care Workers

Pay

As at December 2015, the average hourly rate across Hampshire for a care worker was £7.75, which was similar to the regional average across the South East area (£7.70).

The average hourly rate for a care worker in the statutory sector in Hampshire was £9.14 and in the independent sector the average was £7.52.

From April 2016 the National Living Wage (NLW) will be made mandatory for all workers aged 25 and over, initially set at £7.20 per hour. The NMDS-SC shows that across Hampshire, around 85% of care workers were aged 25 or over and 24% of these had an hourly rate less than £7.20. From this, we estimate the NLW will have an impact on around 4,500 care worker jobs across Hampshire.

The NMDS-SC shows that 11% of care workers in Hampshire were aged between 21 and 24. Given an estimated 19,900 care worker jobs, this equates to around 2,160 jobs held by people in this age group.

Recruitment and Retention

As at December 2015, the NMDS-SC shows that 42.7% of care workers started in their current role over the previous 12 months in Hampshire.

From this we estimate that in total there were around 8,500 care workers starting a new position over the past year across the whole sector. This starter rate was greater than the average across the South East area (38.4%).

During the same period, the NMDS-SC shows 36.0% of care workers left their role in Hampshire.

From this we estimate that, across the adult social care sector, around 7,150 left their role in past 12 months. This turnover rate was greater than the average across the South East area (31.1%).

Furthermore, the NMDS-SC shows that 8.4% of care worker roles in Hampshire were vacant as at December 2015.

Across the sector, this equates to an estimated 1,650 vacant care worker roles. This vacancy rate was similar to the average across the South East area (7.3%).

In Hampshire around 41% of care workers have worked in the sector less than 3 years, 29% have been in the sector between 3 and 7 years and 30% have more than 7 years of experience in the sector.

The average age of a care worker in Hampshire was 41. This is equivalent to the average for South East where the average age was 41.

Also, 18% of care workers were aged 55 and over and given an estimated 19,900 care worker jobs in total, this could mean around 3,600 may retire over the next decade.

Registered Manager

Pay

As at December 2015, the average pay across Hampshire for a registered manager was £29,300, which was similar to the average for the South East region (£29,600).

The average annual pay for a registered manager in Hampshire in the statutory sector was £42,900 and in the independent sector the average was £28,000.

Recruitment and Retention

As at December 2015, there were 728 regulated care providers in Hampshire and 576 registered managers. Some were responsible for more than one location and some locations had a vacant post.

As at December 2015, we estimate that the registered manager turnover rate in Hampshire to be 28.2%. This

turnover rate was greater than the average across the South East region which was 22.6%.

As at December 2015 there were 105 vacant positions for a registered manager in Hampshire, which equated to a vacancy rate of 14.4%. This rate was greater than the average for the South East region (12.2%). It should be noted that, in rare circumstances, some of these locations may not be required to have a registered manager.

For those regulated care providers that had a vacant post for a registered manager, 8, 34 were vacant for between 1 and 6 months, and 63 had been vacant for more than 6 months.

As at November 2015, we estimate that the starter rate for registered managers in Hampshire to be 24.2%. This start rate was greater than the average for the South East region which was 20.6%.

The CQC currently publish the results of official inspections based on the 5 key lines of enquiry (KLOE)

More information

The estimates in this report were produced from *The Size and Structure of the Adult Social Care Sector and Workforce in England, 2015*. For further details visit: www.skillsforcare.org.uk/sizeandstructure.

For more information and to perform your own analysis of data held in the NMDS-SC in your area please visit the Skills for Care Open Access NMDS-SC Dashboards at: www.nmds-sc-online.org.uk/reportengine/dashboard.aspx.

The Open Access NMDS-SC Dashboards act as a diagnostic tool to shine light on issues affecting the social care sector. NMDS-SC data is graphically presented in an easy to understand format with tailored interpretation, simple guidance and links to related resources. Dashboards allow you to explore the following areas:

- Recruitment and retention
- Staff overviews
- Workforce demographics
- Pay
- Qualifications and training
- Local demand and intelligence

These dashboards are available to anyone with an interest in the social care sector, workforce planning, service commissioning or labour market intelligence. With flexible social care workforce information dashboards you can access and understand social care workforce information, select a workforce area of interest and choose your own comparator group and you can see information by your choice of geographical area, service, sector, job role, service user group and more.

Skills for Care analysis team also provide an external analysis service and produce a range of in-depth reports depending on your specific requirements. For more information please email analysis@skillsforcare.org.uk

which are 'Is the service: safe, effective, caring, well led and responsive'. These areas receive a rating between outstanding, good, requires improvement and inadequate and combine to provide an overall rating. In Hampshire, of the 227 regulated providers inspected as at November 2015, 3 had received an outstanding rating overall, 126 received a rating of good, 85 were rated as requires improvement and 13 received a rating of inadequate.

In Hampshire around 9% of registered managers have worked in adult social care less than 3 years, 13% have been in the sector between 3 and 7 years and 78% have been in the sector more than 7 years.

The average age of a registered manager across Hampshire was 48, which was equivalent to the South East region where the average age is also 48. Around 25% of registered managers were aged 55 or over, which could mean, for the whole sector, around 144 retiring over the next 10 years.
