

Hampshire Safeguarding Adults Board

Stakeholder 'Drop In' Sessions

The Hampshire Safeguarding Adults Board (HSAB) brings together organisations which work together to keep people who are vulnerable, safe from abuse or neglect. Our goal is to raise awareness of adult abuse and neglect and to make sure that local services work effectively together to tackle it when it happens.

The HSAB is holding a number of Drop In sessions across local communities in Hampshire as part of its drive to make 'Safeguarding Everyone's Business' by raising awareness of adult abuse and neglect and encouraging local people to act against this, wherever it happens.

There will also be an opportunity to meet staff from organisations such as the Police, Hampshire Fire and Rescue, Trading Standards, Adult Social Services and a wide of voluntary services to find out about their services and what they offer to help local people maintain their wellbeing and keep safe.
